

suppliers, including the contractor and its competitors, not the nonprofit agencies, have insisted the supply contracts be only six months long.

The second contractor produces only the paper version of the tray, not the plastic version being added to the Procurement List. The firm would like the opportunity to produce the plastic tray, which is replacing the paper version, and is taking steps to be ready to produce the plastic tray.

However, the contractor's plastic tray has not been approved by USPS, which has also advised that the transition from paper to plastic will be a long-term process. Accordingly, the contractor is only losing an opportunity to compete for further contracts, if its product is approved, and the Committee has long taken the position that loss of an opportunity to compete is not severe adverse impact on a contractor without current Government sales of the item being added to the Procurement List. In addition, as noted above, no contractor is completely losing the opportunity to compete for future plastic tray business because approximately one-quarter of the USPS requirements for the tray will be available for procurement outside the JWOD Program.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and impact of the addition on the current or most recent contractors, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodity to the Government.
2. The action will not have a severe economic impact on current contractors for the commodity.
3. The action will result in authorizing small entities to furnish the commodity to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity proposed for addition to the Procurement List.

Accordingly, the following commodity is hereby added to the Procurement List:

Corrugated Plastic MM Tray
P.S. Item 3925

(U.S. Postal Service requirements for East Hartford, CT; Somerville, NJ and Baltimore, MD)

This action does not affect current contracts awarded prior to the effective date of this addition or options that may be exercised under those contracts.

Executive Director.
